ON THE TAX QUESTION. The Journal has changed front upon the tax question. It has been insisting all along that United States securities were exempt from taxation by State authority, not that the bonds were so exempted by act of Congress merely, but that if Congress had passed no law in reference thereto, under the provisions of the Constitution as expounded by the Supreme Court, all Govern ment bonds would be exempt from taxation for State, county or municipal purposes. Now, the Republican organ assumes the ground that the present Government bonds are exempted from local taxation by contract between the Nation and its creditors. So, then, according to the present position of the Journal, the States would have the right to tax the bonds if a contract be tween the Government and its creditors did not prohibit it. And it says further, that "the creation of a new debt, subject to State taxation, it deems a question of expediency and not of constitutional power." This is a complete back down from the position it has heretofore taken.

The Journal argues that the nation should present loans expire, mostly within three years, General Cannington took from them. In many such confidence will be imposed in the integrity of the Government that new loans can be negotiated on much more favorable terms-subject to such taxation by the States as Congress may see fit to prescribe. The Journal is opposed to taxing the outstanding bonds, but is in favor of taxing those which may be issued hereafter to redeem the others as they fall due. Its reason for so doing is obvious. It can get pay for ad vocating the exemption of the outstanding bonds from State taxation, but it cannot expect compensation for maintaining that new loans may be, or should be made subject to that equitable burden. It takes the bread and butter side of the question, not of justice and equality.

NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know as instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its opers tions, and speak in terms of commendation of its magica effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after 30 years experience, AND PLEDGE OUR REPUTATION FOR THE FULFIL-MENT OF WHAT WE HERE DECLARD. In almost every instance where the inlant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

The Florence Nightingale of the Nursery.

A BENEFACTRESS.

senger, at Chambersburg, Pa.:

There is a woman in the public eye whose name had all along been associated, in our mind, with the "Yan-kee," "Quack," and "Humbug." But it is so no longer, and we desire to wrest her name from all such suspicious associations in all other minds. Whatever notions we may have of womanly delicacy and propriety, we will all admit that woman alone is the Nurse—the good Nurse-the best Nurse. Whether we shall have Female Physicians or not, is a question which must be decided by time and principle, and not a matter of taste. Pride, prejudice, caprice and custom may as well behave themselves, for if there is really a want, there will also be a

supply; if there be a "calling," there will be a coming. Nature and human society are always self-supplying, and though art and Fashion may hinder, they cannot Mrs. Winslow does not wish to treat you gentlemen Nor does she prescribe a regimen for your wives; but she modestly appears as a messanger of health and happiness to your infants in the cradle is there anything improper in that? A Nurse of "30 years" experience can boldly say what is or is not good for a babe, and ought to be listened to. God areed her on her humble and happy mission. She is the most successful physician and mosi effectual benefactress our little ones over enjoyed—her doting parents not excepted. Just open the door for her, and Mrs. Winslow will prove the Ameriran Florence Nightingale of the Nursery. Of this we are so sure, that we will teach eur "Susy" to say." A Blessing on Mrs. Winslow"—for helping her to survive and escape the griping, colicking and teething siege. We confirm every word set forth in the prespectus. It performs precisely what it professes to perform, every part of it—nothing less—Away with your "Cordial," "Parogoric," "Drops," "Laudanum," and every other "Narcotic," by which the babeis drugged into stupidity, and respectus for life. and repdered dull and idiotic for life.

Rest, Health and Comfort to

Mother and Child.

We have never seen Mrs. Winslow-know her only

through the preparation of her "Southing Syrup for Children Teething." If we had the power we would make her, as she is, a physical savier to the infant race.

MRS. WINSLOW'S SOOTHING STRUP for children. teething, softens the gums, reduces inflammation, allays all pain, and cures wind cholic. Perfectly safe in all cases. We would say to every mother who has a suffering child, do not let your prejudice, nor the prejudices of others, stand between you and your suffering child and the relief that will be sure-yes, absolutely

sure-to follow the use of this medicine if timely used.

DON'T FAIL TO PROCURE MRS. WINSLOW'S. used for 30 years with never failing safety and success by millions of mothers for their children. It corrects acidity of the stomach, relieves wind cholic, regulates

the bowels, and gives rest, health and comfort to mother, and child. Office No. 48 Day street, New York.

those of your readers who have babies can't do better

than lay in a supply."

The great popularity of Mrs. Winslow's Soothing Syrap, for children teething, has induced unprincipal persons to put up articles to be used for the same purpose, in advertising which they have not only copied our advertisements and notices from the press, but have copied certificates and letters from clergymen and others, affixing other names to our genuine certificates.
